# Expense Reduction Cost Services

Helping Businesses reduce costs Improving their cash flows and net profits.

635,000 businesses have closed in 2021 that is what has prompted us to help support businesses reduce their cost in some cases dramatically. We can service 50 states in the USA.

A cost reduction program is a strategy to reduce expenses. We partner with Experts in different fields and with their knowledge and history we manage to provide this service.

# Our Fees

The only time that you get billed is if we are successful in producing reduced costs. The difference between what you were originally paying and the new rate is the saving amount. On that amount your company keeps 50% of the saving, the other 50% is payable to us for the following 12 months of the calendar. It can be paid in a lump sum or monthly. An incentive of 3% is created if paid up front.

THE 2 ITEMS WE OFFER IN THIS PRESENTATION ARE; **WASTE MANAGEMENT** & **TELEPHONES** FOR COST REDUCTIONS.

Our partners in this area of business have just announced to us that they were able to reduce a Waste Management Bill by \$34,000.- over 3 years in areas of dumpsters, medical waste, and shredding.

Such amounts are obtained by a history and knowledge of Waste Management where contract negotiations are implemented, where comparisons of pricing is prepared in each and every case, and often with the existing Vendors.

**TELEPHONES:** Reduction of Costs on Telephones, have also been a success and in one case \$47,000 reduction.

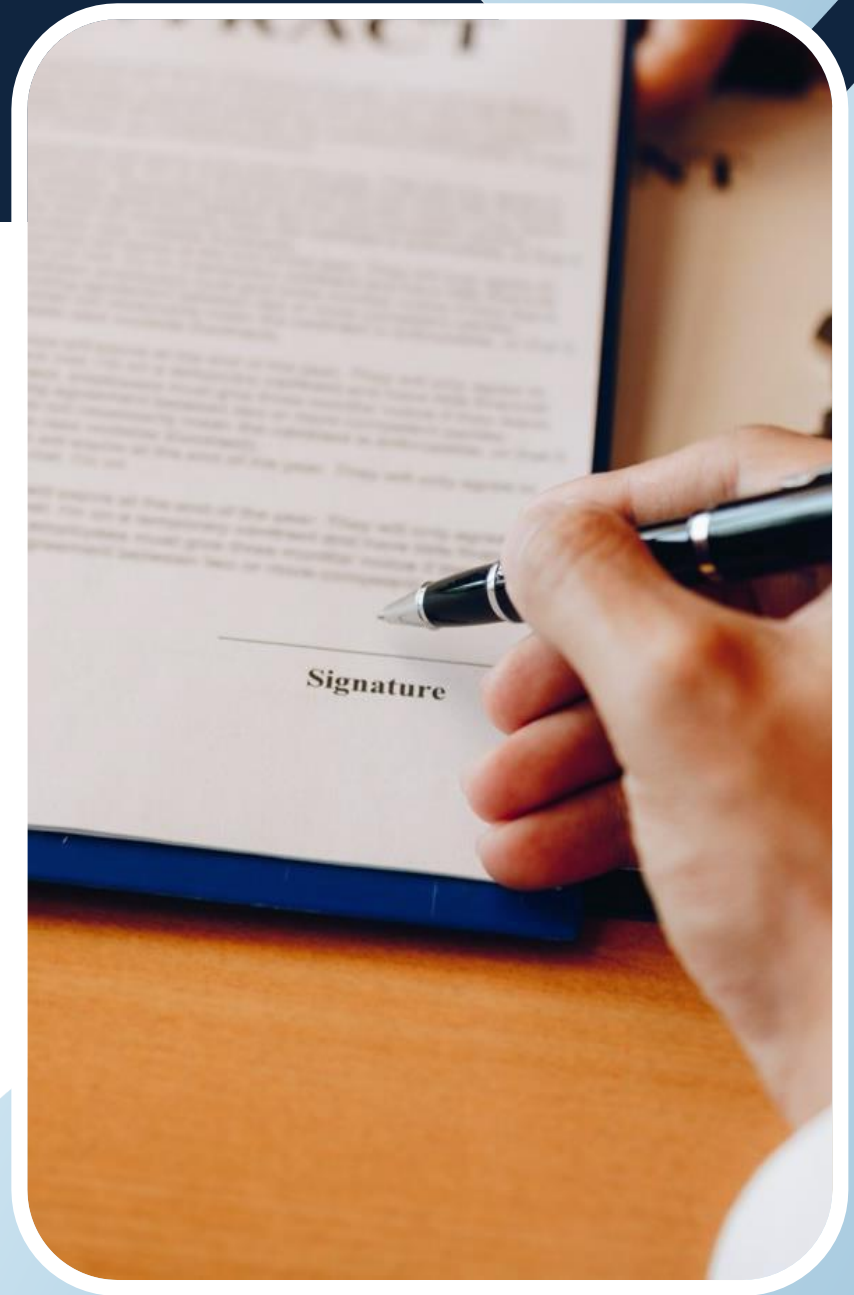

## A Short Version of Funds We Can Save

# CONCLUSION

In conclusion we will provide a list of the Vendors we have dealt with, negotiated and researched, they could be the ones you have already or new ones.

The list is yours to keep for future savings. We only charge for 12 months of savings of which 50% is Yours, and 50% would be our charge payable upon determination of each item saved.
