

# EXPENSE REDUCTION COST SERVICES

A Risk-Free Service of  
Sales Tax Recovery

**ANALYZING INVOICES FOR SALES TAX OVERCHARGES**

# SALES TAX RECOVERY

A cost reduction program is a strategy to reduce sales tax where there were overcharges.

Sales tax is an area that requires study to determine if, in fact, those charges are warranted. Sales tax exists in many areas, telephones, utility, waste management, purchases, water bills and many other areas.

A long list of companies and products exists and depending on the type of company its status, the products, could be exempt if structured under 501C3.

Some companies have products that are exempt because of the nature of the product and its use. The Medical field is one of them.

# Conclusions should not be made until items & companies have been checked out

Since the list is too extensive with regards to different taxes the best way is to write us at: **[margielevy1234@gmail.com](mailto:margielevy1234@gmail.com)** with information as to the type of company & products that you wish to check on.

We will make sure that we verify exactly what is involved and what is applicable and which invoices to send us so we can process the possible savings.

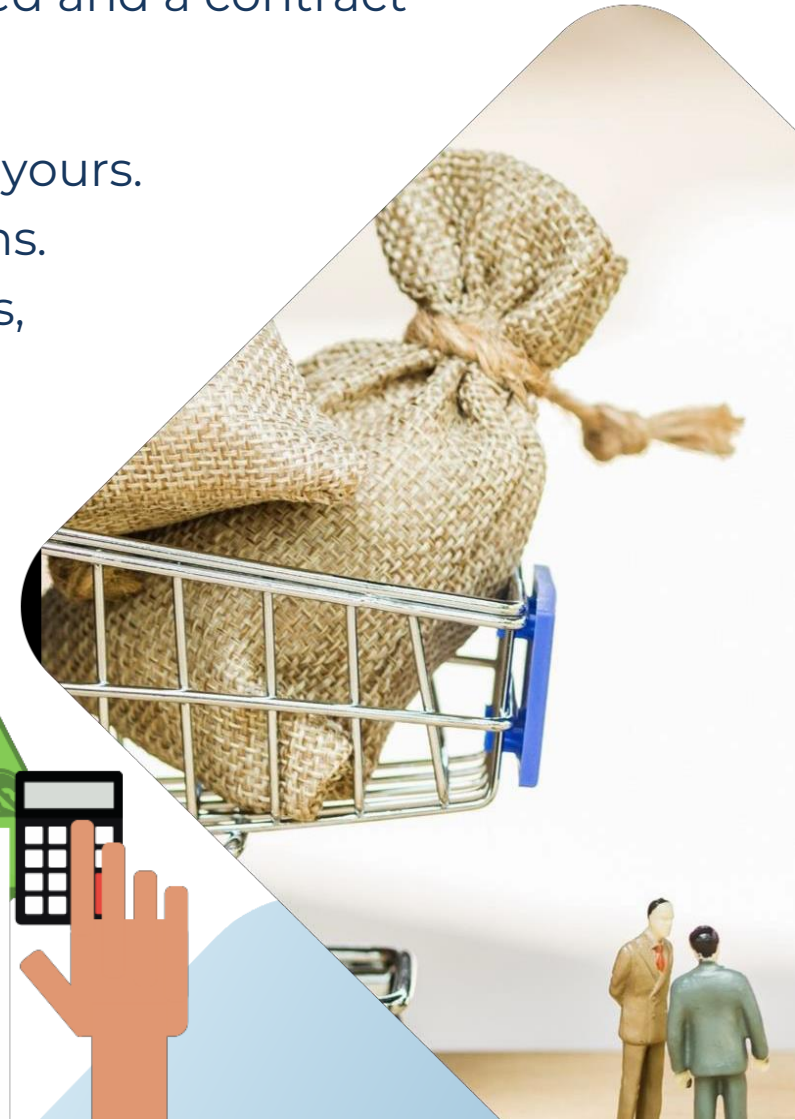

# FEES

We are a RISK-FREE COMPANY, which means we do not charge for our Initial Analysis. If we determine that in fact there are discrepancies that allow us to reduce tax overcharges, you will be advised and a contract will be sent to you.

Our fee is 50% of the savings. The other 50% remains yours. The payment is for savings for the following 12 months. Some companies charge as much as 18 or 60 months, we only charge 12 months of savings.

If other items other than Sales Tax need to be addressed, then payment in full for the previous analysis needs to be made.

# CONTRACT SIGNED

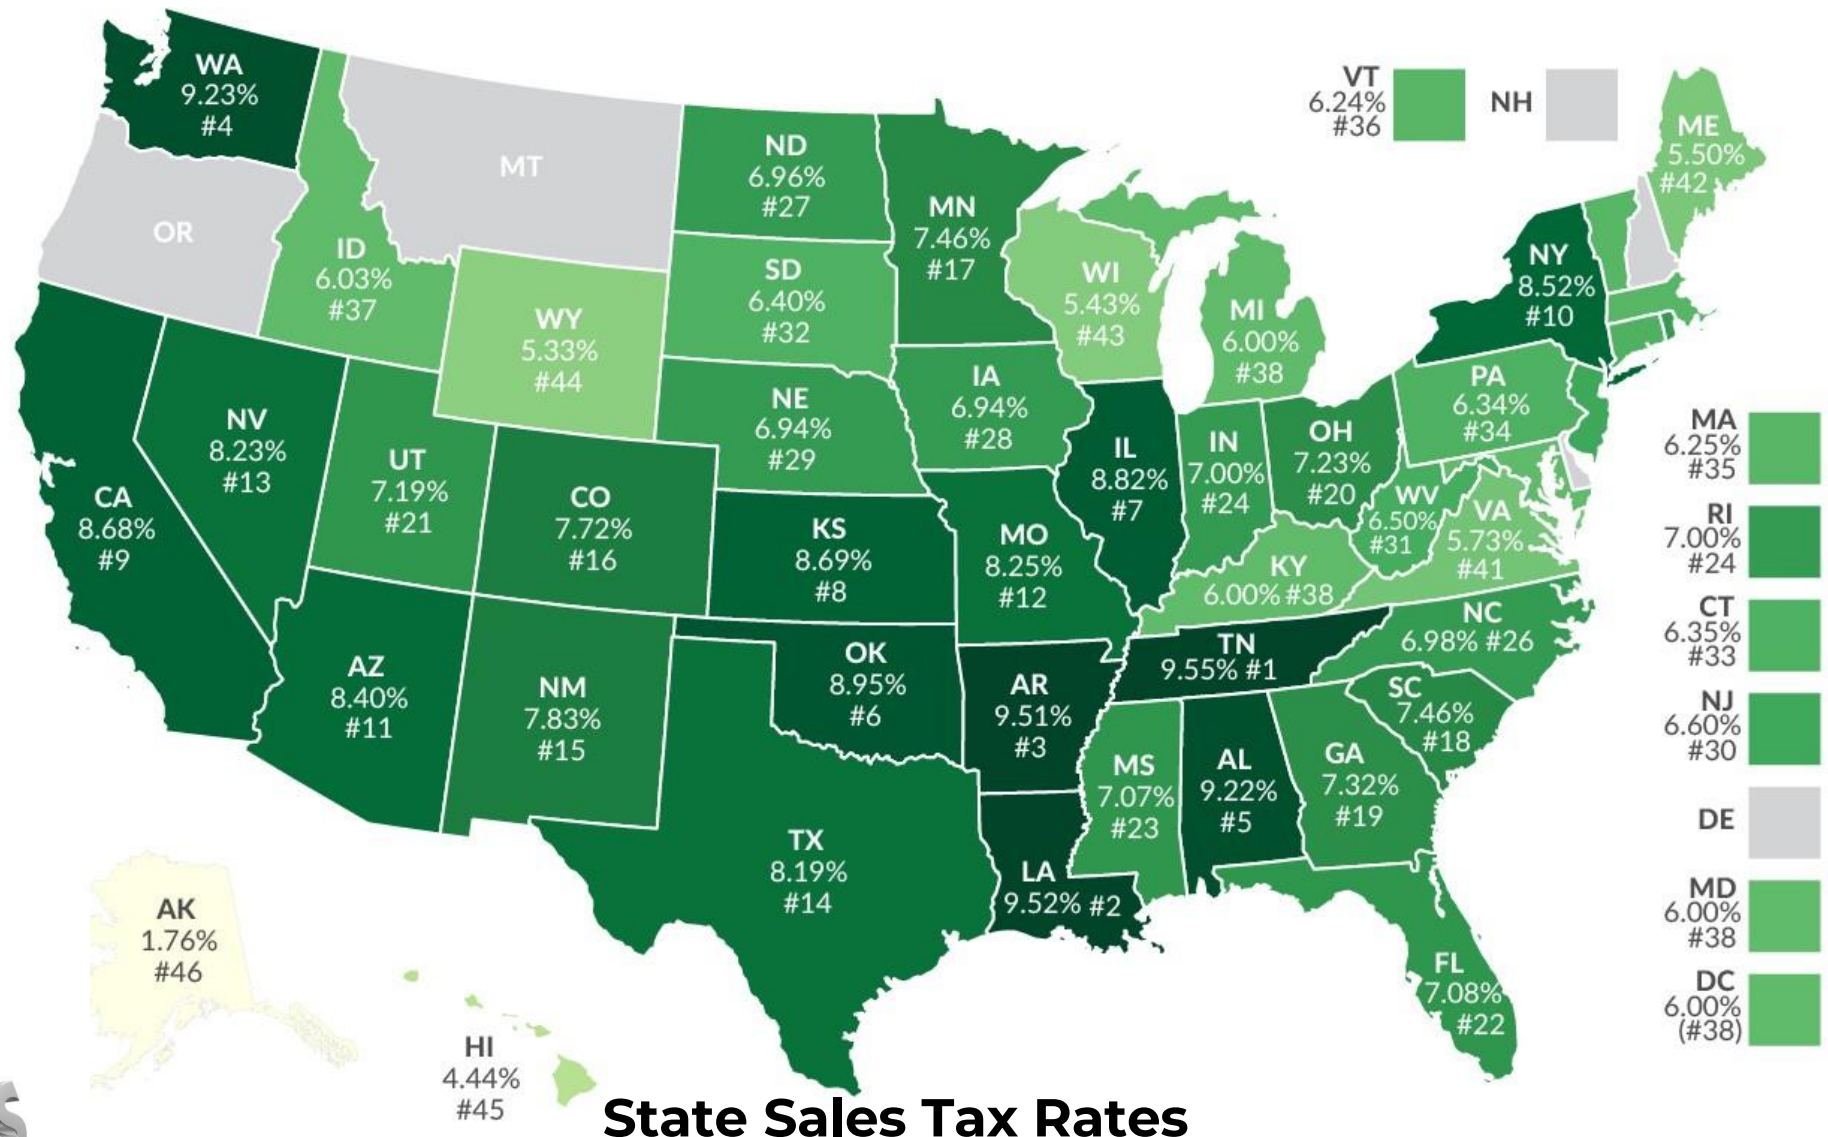

After our initial review, an email will be sent to you advising you that in fact there are possible savings. If you agree to proceed, then you would be asked to sign the contract.

Reduction of costs do take time, and COVID-19 is not helping speed up matters, so the process is followed, and only when the savings occur is payment made be it with a 3% reduction to pay the full 12 months savings, or on a monthly basis as the savings occur. The choice is yours.

If no savings have been found, you owe us nothing for all the work performed.

Map showing all the states with the taxes are dedicated to the particular State. States are allowed to change their tax laws, so these maps provide a general idea but will be confirmed when we address taxes in a particular state.

**State Sales Tax Rates**

# The following is an initial list of industries and products that might be overcharged

1. The Medical Industry for Chemical compounds and test kits.
2. Drug Stores, Pharmacies, Medical Centers, Hospitals, Rehabs, Clinics, all would carry items that may be exempt from taxes.
3. Common household remedies.
4. Prosthetic and Orthopedic appliances.
5. Patient remedies whether they are for humans or animals but must be prescribed by a professional. This item can affect Animal Hospitals, Veterinarians, who could use the service also other than medical centers.
6. Optical products are only the ones prescribed.
7. Bakery Companies - Manufacturers of baked products. Condiments needed to bake different products, cakes, cookies etc..
8. Podiatrists - foot products.
9. Manufacturers of most products may benefit from Utility sales tax and maybe raw materials that could be exempt.
10. Dentists for Crowns and Bridges - products going into building these items.
11. The agricultural industry.
